

# GLTCart

HEMODIALYSIS CONSUMABLES

## GLTCart CARTRIDGE BICARBONATE

GLTCart Cartridge, containing sodium bicarbonate, is designed for use in hemodialysis treatment. This powdered form offers a convenient alternative to the standard 8.4% liquid sodium bicarbonate hemodialysis solution.

## GLTCart BAG CARTRIDGE BICARBONATE

GLTCart BAG, containing sodium bicarbonate, is designed for use in hemodialysis. This powdered form offers a convenient alternative to the standard 8.4% liquid sodium bicarbonate hemodialysis solution.

### Advantages of GLTCart

**Space-Efficient:** GLTCart takes up less storage space compared to its liquid counterparts, optimizing storage capacity in healthcare settings.

**Quality Assurance:** The sodium hydrogen carbonate powder within GLTCart complies with the stringent standards set by the European Pharmacopoeia (EP), United States Pharmacopoeia (USP), and British Pharmacopoeia (BP), ensuring quality and safety.

**Compatibility:** GLTCart is compatible with all conventional dialysis machines equipped with appropriate cartridge holders, guaranteeing seamless integration into existing dialysis protocols.

**Extended Shelf Life:** With a shelf life of 36 months, GLTCart provides long-lasting reliability and flexibility for healthcare facilities. Individually packed in transparent Polyethylene cartridges.

Product Code	Ingredients of Products	GLTCart Cartridges Per Box	GLTCart Cartridge Per Pallet
GLTCart 550 g	550 g NaHCO <sub>3</sub>	10 pcs	720 pcs
GLTCart 650 g	650 g NaHCO <sub>3</sub>	10 pcs	720 pcs
GLTCart 720 g	720 g NaHCO <sub>3</sub>	10 pcs	720 pcs
GLTCart 760 g	760 g NaHCO <sub>3</sub>	10 pcs	720 pcs
GLTCart 850 g	850 g NaHCO <sub>3</sub>	10 pcs	720 pcs
GLTCart 900 g	900 g NaHCO <sub>3</sub>	10 pcs	720 pcs
